Overview

Team Lead with more than 5 years of experience on different embedded system products at Siemens previously known as Mentor Graphics®. Find me **here**

Education

Islamia University of Bahawalpur (3.74/4.0) **Bahawalpur, Pakistan**
BSc Electronic Engineering 2012-2016
Punjab College for boys Bahawalpur (876/1100) **Bahawalpur, Pakistan**
FSc. Pre-Engineering 2010-2012
Al Badar H/S School for boys Head Rajkan (928/1050) **Bahawalpur, Pakistan**
Matric 2008-2010

Professional Experience

Siemens Software Industry (Previously Known as Mentor Graphics) **Lahore, Pakistan**

Siemens Digital Industries Software is an American computer software company specializing in 3D & 2D Product Lifecycle Management software. The company is a business unit of Siemens, operates under the legal name of Siemens Industry Software Inc, and is headquartered in Plano, Texas.

Technical Lead: (December, 2020 – Present)

- ***Technical Skills Development:*** C++ applications development for testing. Developed a testing framework from scratch for automated testing of C++ applications using GDB on Linux based system. Working with MakeFile. Updated and improved significantly inhouse built C++ testing framework.
  - C applications development for multicore framework using Nucleus Safety Cert and PetaLinux.
  - Implemented Jenkins Job for C/C++ applications build, and static memory analysis of different applications using Python.
  - Worked on exceptionally large project and refactor the whole versioning structure of the project and divided into Git submodules by maintaing the whole commit history of the project and resolving all the dependencies for different submodules.
  - Ported Jenkins CIs to GitLab CIs.
  - Intermediate level understanding of Web Technologies, Web views and dashboard updates.

- ***Soft Skills Development:*** Working with exceptionally large and diverse team spanning multiple countries.
  - Working in very fast pace.
  - Learning new technologies in very short time.
  - Problem solving skills.

Senior Software Development Engineer: (December, 2018 – November 2020)

- ***Technical Skills Development:*** Started working on automation for driver testing. Strong understanding of software debugging and testing techniques. C applications for measuring performance and stability of multicore systems. Application development for embedded systems testing.

Software Development Engineer: (July, 2017 – November 2018)

- ***Technical Skills Development:*** Polished and enhanced all technical skills by working within a divers and top-class engineer in industry. Grew a better technical understanding especially on embedded systems, RTOS and architecture. Worked on testing of embedded software especially driver testing and OS testing.
- ***Soft Skills Development:*** Developed better communication skills. Learned how to work with different teams in a very diverse environment as well as an individual. Flourished a better understanding of time management and process management.

KICS UET Lahore **Lahore, Pakistan**

An institute for advanced and high-quality applied research working on national and international levels.

Trainee Engineer: (January, 2017 – June, 2017)

- ***Physical training:*** Enhanced and polished knowledge of embedded systems, 3D printer, Automatic Irrigation System, development and modification on innovative level.
- ***Skills Development:*** Developed Technical report writing skills, project proposal writing, managing as well as developing the project and work with different field engineers and research officers.

Academic Activities

Final year Project: CNC Plotter

- Drawing of any vector graphic picture by converting into G-Code and sending it through USB port
  - Project Leader: (September2015 – August 2016)
  - Researched, developed and implemented different algorithms for controlling and communication

Semester Projects: Ultra Sonic Radar, Industrial Robot, Home Automation, Wireless Patient Monitoring

- Correlation and understanding between hardware and software
- Developed poster presentation skills, reporting skills, and writing research paper skills
- Specialized work experience on Electronics board, PCB making, Embedded projects.
- Troubleshoted and implemented sound knowledge of Electronic circuits.

Technical Skills

- Nucleus RTOS, Nucleus ReadyStart, Nucleus SafetyCert,
- C/C++
- Python, Bash
- Git (GitHub, GitLab, Bitbucket), SVN
- Atmel Studio, uVision
- Good knowledge of Linux operating system
- ARM, AVR
- TestLink
- Virtual Box, VMware, VCloud
- Microsoft Office, Atlassian suite(Confluence, JIRA)

Interpersonal Skills

- Good verbal and written communication skills
- Team work spirit
- Good researcher and quick learner
- Strong Analytical Skills
- Ability to work in a fast paced environment with remote teams
- Ability to adhere to scheduled and team-agreed timelines
- Motivated and focused
- Can speak English, Urdu, Punjabi and Saraiki

Honors and Awards

- Received merit base Full Fee scholarship from Punjab Group of Collages (2010-2012)
- Received merit-based Laptop Award from Chief Minister Punjab (2013)
  - Achieved “Shield of Commitment” from the Vice Chancellor of IUB Bahawalpur (2016)

Interests and Hobbies

Robotics, Embedded Systems, Reverse Engineering, Electronic Circuits, Electronics Automation, IoT

- Hobbies: Working with microcontrollers, IoT devices and reverse engineer different hardware and software.

- Making Technical videos for YouTube and other Social Media.
- Making Software as well as Hardware Hobby Projects in free time, details can be found on YouTube and GitHub.
- YouTube Channel: Parvaiz Ahmad
- GitHub Profile: Parvaiz Ahmad
